

# 6-0-12 GRANULAR

## NATURAL BASED FERTILIZER

Aminorganix 6-0-12 greens grade granular fertilizer is a professional blend of nitrogen, higher potassium and essential soil trace elements to supplement the natural food supply in the soil. 6-0-12 fertilizer feeds turf immediately and continuously, formulated with six nitrogen sources and seven potassium sources to provide feeding that can last for more than three months. Calcium, sulfur and essential micro and macro ingredients enhance performance for optimum growth as well as twice the number of natural auxins to enhance root growth. 6-0-12's organic nitrogen's unique cation and thixotropic properties help keep the nutrients in the root zone for months.

---

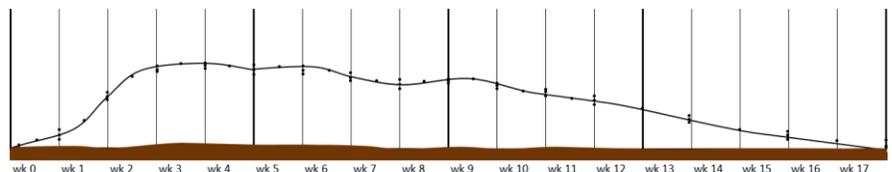

### FULL NUTRITION PROGRAM

Feeding the bacteria, mycorrhizae and other beneficial microorganisms is key to nutrient utilization. 6-0-12, like 9-3-7, enhances the symbiotic relationship with the plant while attracting and feeding billions of CFU's of beneficial microorganisms and mycorrhizae, increasing root mass and strengthening all plants throughout the growing season.

---

### CONTINUOUS FEEDING FOR 90-150 DAYS

Six nitrogen sources and our unique cation and thixotropic properties provide continuous feeding for months that improves in color and growth uniformity year after year after year. This is the scientific approach to continuous nutrition, stimulating the natural biological processes in your soil to help produce healthy plants. Healthy plants will be better able to resist disease, force out weeds and thrive.

Residual nitrogen in the soil from the seasonal feeding and the environmental nitrogen provided by exhaust emissions, microorganisms, root growth, worm castings, lighting and other sources.

# 6-0-12 GRANULAR NATURAL BASED FERTILIZER

## PRODUCED IN FDA FEED GRADE FACILITIES

Manufactured from feed grade ingredients.

People and animals can walk and work immediately where applied.

**CONTAINS NO MANURES AND NO PESTICIDES AND NOT INTENDED FOR HUMAN CONSUMPTION.**

## GREEN FASTER AND LONGER

Feed grade urea provides faster deeper green while six organic nitrogens help sustain growth and color for months.

All organic nitrogens are from sustainable sources.

## GUARANTEED ANALYSIS

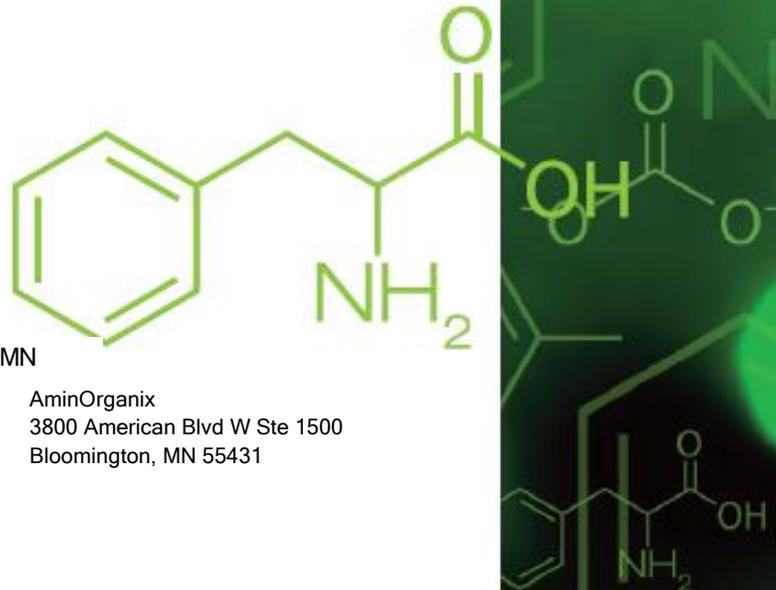

Total Nitrogen(N)	6.00%
6.00% Water Insoluble Nitrogen*	
Soluble Potash (K <sub>2</sub> O)	12.00%
Calcium (Ca)	3.00%
Total Magnesium (Mg)	0.40%
0.28% Water Soluble Magnesium	
Sulfur (S)	5.70%
5.00% Combined Sulfur(S)	
0.70% Free Sulfur(S)	
Boron (B)	0.02%
Cobalt (Co)	0.0005%
Iron (Fe)	1.25%
Total Manganese (Mn)	0.30%
0.08% Water Soluble Manganese	
Molybdenum (Mo)	0.0005%
Zinc (Zn))	0.10%
0.10% Water Soluble Zinc
