

*The environmentally sound specialty agriculture program from AminOrganix, the leader in sustainable solutions for growth*

Ask any commercial growing professional. They want healthy plants and a safe and reliable way to fertilize without specialized labor or instructions. That's what 10-0-7 is, quality organic fertilizer used to grow a variety of fruits and vegetables. Aminorganix is a great way to start seeds, transplant seedlings and provide controlled release, often one application for growth from seed to sale. We help build beautiful productive plants for commercial growers because we build plants from the ground up.

#### **CONTINUOUS FEEDING PROGRAM**

Aminorganix feeds plants continuously, formulated with seven nitrogen sources, seven phosphorus and seven potassium sources to provide feeding that can last for more than three months. Calcium, sulfur and essential micro and macro ingredients enhance performance for optimum growth. 10-0-7 is organic and it stays in the root zone longer than synthetics using its unique cation and thixotropic properties to provide nutrients uniformly with irrigation.

#### **FULL NUTRITION PROGRAM**

Feeding the bacteria, mycorrhizae and other beneficial microorganisms is key to nutrient utilization. 10-0-7 enhances the symbiotic relationship with the plant while attracting and feeding billions of CFU's of beneficial microorganisms and mycorrhizae, increasing root mass and strengthening plants from seed and throughout the growing season.

#### **IT'S ALL ABOUT THE LABEL**

##### **Guaranteed Analysis**

Total Nitrogen(N)	10.00
10.00% Water Insoluble Nitrogen*	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )	0.00
Soluble Potash (K <sub>2</sub> O)	7.00
Calcium (Ca)	2.10
Total Magnesium (Mg)	0.50
0.18% Water Soluble Magnesium	
Sulfur (S)	4.80
3.30% Combined Sulfur (S)	
1.50% Free Sulfur (S)	
Cobalt (Co)	0.0005
Iron (Fe)	1.25
1.25% Water Soluble Iron	
Total Manganese (Mn)	0.50
0.08% Water Soluble Manganese	
Molybdenum (Mo)	0.0005%
Zinc (Zn)	0.10
0.10 % Water Soluble Zinc	

##### **Ingredients**

Hydrolyzed poultry feather meal, wheat middlings, soybean meal, corn gluten meal, alfalfa meal, molasses, sulphate of potash, dolomitic limestone, elemental sulfur, cobalt sulfate, iron sulfate, magnesium sulfate, manganese sulfate, zinc sulfate, sodium molybdate.

\*10.0% slowly available nitrogen from hydrolyzed poultry feather meal, wheat middlings, soybean meal, alfalfa meal, corn gluten meal, molasses.

**NO MANURES, NO FILLERS, MADE TO FEED GRADE STANDARDS FOR MAXIMUM SAFETY**  
Aminorganix and every one of our field specialists is committed to providing environmentally responsible products which will help keep fruits and vegetable areas healthy and safe.

We specialize in Integrated Plant Management, the scientific approach to nutritional product selection to stimulate the natural biological processes in your soil and turf to help produce healthy plants and healthy soil while enhancing the environment. Building plants from the soil up enhances disease resistance and produce the characteristics you require for specialty agriculture.

**FORMULATED TO CONTINUOUSLY FEED FOR MONTHS**

**PROFESSIONAL AGRONOMIC MANAGEMENT**

Our experienced and expert staff and regional field specialists are here to help. Learn more about our products and how they help you grow healthier fruits and vegetables from the soil up without harming the environment.
